The growing demand for **ARTIFICIAL ICE** is due to the absolute purity and freedom from bacteria in any form.

Made from *distilled water*, it is perfectly safe for drinking and all domestic uses, and is highly recommended by *physicians* and "*Boards of Health*" as being the only ice safe to use for all purposes, while it is a well-known fact that natural ice contains more or less deleterious matter from surface drainage and other sources, that renders it a positive menace to health.

ARTIFICIAL ICE is supplied at the *usual rates* charged for the natural product, and housekeepers will find it more economical.

It does not TAINT the ice-chest or any food which comes in contact with it.

The above company are prepared to supply families in Boston, Brookline, Jamaica Plain and Roxbury.

PREFACE.

The BROOKLINE DIRECTORY for 1896 is offered for the use of the citizens of BROOKLINE and the general public with the confident expectation that the efforts of the publishers to give satisfaction will be appreciated. The town of BROOKLINE, noted for its wealth, its splendid residences, avenues and prosperity, deserves a Directory complete in its information, compiled with accuracy and convenient and pleasing in form, all of which requirements we have endeavored to meet, without regard to labor or expense.

A Directory gives a certain character to the place it represents, and the more generous the support of business men in advertising the larger are the facilities of the publishers to furnish a work that will reflect credit upon the town and leave nothing to be desired. We shall furnish year by year a Directory that will give satisfaction, and our long experience in the field justifies our statement that we can do so, far better than an inexperienced concern.

With appreciation for the courtesy extended to our canvassers in securing both information and business, and with the unflagging desire to present a Directory giving good results to advertisers and subscribers suiting all who consult its pages, thus commending itself to a generous patronage, we remain,

Respectfully,

W. A. GREENOUGH & CO.

THE PROVIDENT

LIFE and TRUST COMPANY

Of PHILADELPHIA.

Excelled by no other Company. Perfect security, low cost of Insurance, prompt settlement of death losses and liberality to policy holders. Issues

LIFE, ENDOWMENT, TERM AND PARTNERSHIP POLICIES.

Attention is called to the exceedingly low rate Term Policies, (with participation in surplus,) which afford insurance in these times of financial depression at a very small expense. Also to its Policies which are payable to the beneficiaries in yearly installments, and also to its Installment-Annuity Policies, which guarantee to the wife a fixed income during **her entire life.**

The Endowment Policies of the Provident are exceedingly simple and untechnical and are issued at low rates.

REGULATIONS CONCERNING FIRE ALARMS.

Second alarm to be given by striking three blows.

General alarm to be given by striking ten blows.

1 One stroke at 12 M. Washington time, and 9 P. M. every evening.

1-1 Two strokes slow for fire out, and all apparatus under way will return to quarters.

One first alarm from boxes 26-27-32-33-34-35-36-37-38-39-41-43-45-46-312, Hose 3 will take position in Hose 1's house.

On second alarm from boxes 16-17-18-19-21-23-24-29-212, the Chemical engine will take position in Hose 1's house, and the Combination Engine will take position in Hook and Ladder No. 1.

Members of companies not responding on first alarm shall report at the house of their respective companies, and remain there twenty minutes, unless the recall signal has been sounded. After a first alarm has been given and before the recall signal is sounded, should an alarm be given from another box, all unemployed first and second alarm companies will respond.

22 Signal for no school, 4 rounds.

Also a special box for Town Hall except between the hours of 7.45 and 8.30 a. m.

EUGENE N. DAVIS, Supt.

INFORMATION FOR YOU.

Before ringing an alarm be sure that a fire actually exists.

Do not give an alarm for a fire seen at a distance, as all needless alarms are an expense to the town, and should be avoided as much as possible.

To give an alarm, break glass in front of small box, take the key you will find there, open door to fire box, pull down the hook in the box once (without jerking), and let go. Wait a few seconds and if you hear no clicking of the wheels, pull again (no clicking, no alarm); if then no movement is heard, go to the nearest box and try, after which report immediately to the superintendent or at the Station House, the box out of order.

All persons giving fire alarms are requested to remain by the box, if possible, to direct the firemen to the fire. Each box contains a small bell, which if heard before you pull indicates that the alarm has been previously given.

After the first alarm has been rung in, all other alarms or signals are given only by the engineers.

Tampering with any of the apparatus connected with the Fire Alarm Telegraph will be prosecuted to the full extent of the law.

SPECIAL NOTICE.

The fact that an alarm box is located near their residence and where the key is kept, should be known to all persons, both male and female, and the simple manner of giving an alarm in case of fire should be a matter of common education. The Board of Engineers recommends to all persons who may see this notice, that they make all necessary inquiries to enable them, in case of need, either to get the key and pull an alarm in, or direct others to do so. Time saved in this way may prevent a conflagration.
